nora[®]

Versatile like decathletes and lasting like marathon runners

The world of sports has many facets, it is complex and versatile. And because even the most successful high-flying athletes need to be on firm ground once in a while, nora® has the perfect solution for sports applications.

Be it floor coverings which protect the joints, which ensure top performance for athletes, which convince through their anti-slip and walking safety characteristics and also offer fatigue-free walking. Or floor coverings which cope with the highest traffic load. Which are not damaged neither by spikes nor by skate runners and which cushion bullets from guns and pistols.

Versatile like decathletes and lasting like marathon runners, permanently resilient and always in great shape - nora® floor coverings made of rubber are absolutely predestined for use in the extremely demanding segment of special sports floor coverings and adjacent areas. And this has been proven in various soccer World Cup stadiums or Olympic arenas. With more than 300 colours and styles available, we merge function and aesthetic appeal to meet the unique demands of your sports facility.

- extraordinary wear resistance
- easy to clean and to maintain
- no coating or sealing needed
- slip-resistant and safe for walking
- permanently resilient - with high walking comfort
- resistant to cigarette burns
- outstanding fire-protection characteristics and fire-toxicologically safe
- high footfall sound absorption
- environmentally friendly, free of PVC, plasticizers (phthalates) and halogens (e.g. chlorine)

Rubber floor coverings handle the toughest activities

Stadiums and multi-purpose arenas

nora® rubber floor coverings are used world-wide in traffic and adjacent areas of large sports stadiums and arenas. These areas are subject to high traffic load. In this respect, the resistance to wear, the long lifetime, and the easy cleaning of noraplan® and norament® floor coverings pay off. Even after years of intensive use, almost no wear marks are visible. Our norament® floor coverings are particularly suitable for very heavy traffic surfaces in stadiums.

Entrance areas

Sports facilities and fitness centers operate in a competitive environment where it's important to make a strong impression. Plus, it's crucial to avoid slippage in entryways that get wet from rain or snow. Durable, easy to clean and slip-resistant, nora® floor coverings are available in many different designs and with custom-made inlays to turn in an impressive performance.

Fitness areas

nora® floorings provide a strong combination of wear resistance and attractive designs and inlays to be an all-around winner. It's ideal for fitness rooms, gyms and exercise areas - requiring ergonomic performance and impact absorption to protect joints.

Beijing Water Cube, China

Ice rinks

The high rubber content in nora® floor coverings make it the ideal cut-resistant and slip-resistant surface for ice skate blades when skaters are walking or standing around the rink. Especially in these areas impact resistance and point resilience are required.

Corridors and staircases

Corridors and staircases are often used as escape routes and therefore have to feature special fire-safety properties. In addition, these areas are usually highly frequented; therefore have to be extraordinarily wear-resistant and feature very good cleaning behaviour.

Changing rooms

Safety is a priority in changing rooms and shower drying areas where water droplets and puddles can create slippery conditions. That's why floor coverings are to be used with slip resistance classification R10 or R9 and A.

Cafeterias

Cafeterias are meeting places where the focus is on a pleasant atmosphere; therefore there are special demands on design and colouring for the floor covering. In addition there are often smoking zones in these areas, which require cigarette-burn resistance.

Patinoire de Pailleron - Ice Arena, France

Estádio Fonte Nova, Brazil

norament[®] 992/992 grano

For areas with extreme requirements (e.g. ice rinks, golf clubs, animal stables, etc.).

norament[®] 992

Round pastille

norament[®] 992

Art. 992/1956

□ ~1002 mm x 1002 mm

nora[®] profile connection dimension: N

Please note price group black/coloured

norament[®] 992 grano

Hammerblow surface

norament[®] 992 grano

Art. 992 grano/1955

□ ~1002 mm x 1002 mm

nora[®] profile connection dimension: N

| norament® 945 grano

Rubber flooring with high percentage of recycled materials. norament® 945 grano for protection and safety in indoor shooting facilities.

norament® 945 grano

norament® 945* grano

Art. 945 grano/1938

□ ~1002 mm x 1002 mm

nora® profile connection dimension: U

*This material is not part of the standard product range. Please contact your responsible nora representative office for further information.

Safety in indoor shooting ranges knows no compromises. norament® 945 grano meets this demand in several aspects:

- passed the bombardement test for rebound and ricochet behavior
- meets the requirements for classification in class Bfl-s1 according to EN 13501-1
- offers the shooter a stable and safe foothold
- distinguishes itself by its wear resistance and long lifetime

Customs Investigation, Germany

| norament[®] stairtreads

Pre-shaped stair coverings consisting of stair nosing, riser and tread all in one piece for straight steps with right-angled edge. For extremely heavy traffic stairwell areas.

Stairtread norament[®] 926

One-coloured with classic round pastille, footfall sound absorption improvement of 12 dB.

Stairtread norament[®] 926 grano

Granular design rich in contrast with a hammerblow surface, footfall sound absorption improvement of 12 dB.

Stairtread norament[®] 926 satura

Tone-in-tone granular design with a hammerblow surface, footfall sound absorption improvement of 12 dB.

norament[®] stairtreads with signal or safety stripes

norament[®] stairtreads can be equipped with signal or safety stripes.

nora[®] stair nosings

With plug-in lip for quick and easy installation on all types of staircases.

| nora[®] accessories for stairwell areas

Accessory range made of rubber matched to suit norament[®] and noraplan[®] floor coverings. Can also be used in combination with other types of floorings. nora[®] profiles are impact and shock-resistant, do not shrink, do not contain any plasticizers and retain their functional reliability long term.
